CGPA : 8.5/10

Vidya Bharati School, New Delhi

India

HIGH SCHOOL , CENTRAL BOARD OF SECONDARY EDUCATION

April 2016 – March 2017

CGPA : 9.2/10

Work Experience

Amiscent

Remote

SOFTWARE ENGINEER INTERN

August 2022 – September 2022

- Optimized web page performance for faster loading and browsing by redesigning and modifying web pages.
- Enhanced user experience, resulting in increased website traffic.
- Implemented new components using ReactJS and Java to efficiently monitor, encode, and resolve customer inquiries and concerns.

Centre for Development of Telematics (C-DOT)

Remote

FRONTEND DEVELOPER INTERN

August 2021 – September 2021

- Developed a highly responsive and scalable user interface for a JSON Parsing Tool using React.js.
- Translated designs and wireframes into a highly responsive user interface and reusable components.
- Utilized React hooks to enhance the performance and flexibility of the tool.

Projects

COVID Watch

React.js, Node.js, Redux

Covid-19 Live Tracker

Github

- Developed a single-page application using React.js, Node.js, and Material-UI for an interactive experience.
- Used static site generation resulting in faster load time and increasing efficiency.
- Connected Back-End APIs to display data using the Custom Components, Library Components, and Redux.

Bridge Meet

React.js, Firebase

Video Calling Application

Github

- Developed a personal video calling application to create meets using React.js, Firebase, and ZegoCloud.
- Added features like Google authentication and real-time communication among the users.
- Used React-Router to turn the application into Single Page Application.

HackerBoost

Node.js

Hackerrank Automation Tool

Github

- Developed a robust and reliable automation tool using Node.js for Hackerank.
- Used Puppeteer, a Node.js library that provides a high-level API for controlling browsers.
- Enhances efficiency and productivity by logging in and adding moderators to contests.
