## EDUCATION

**Guru Gobind Singh Indraprastha University**  
**B.Tech in Computer Science and Technology**  
CGPA : 8.99/10

Aug 2019 – Jul 2023  
New Delhi, India

**Vidya Bharati School**  
**Intermediate , Central Board of Secondary Education**  
CGPA : 8.5/10

Apr 2018 – Mar 2019  
New Delhi, India

**Vidya Bharati School**  
**High School , Central Board of Secondary Education**  
CGPA : 9.2/10

Apr 2016 – Mar 2017  
New Delhi, India

## WORK EXPERIENCE

### SOFTWARE ENGINEER INTERN

#### Amiscent

Aug 2022 – Sep 2022  
Remote

- Optimized web page performance for faster loading and browsing by redesigning and modifying web pages.
- Enhanced user experience, resulting in increased website traffic.
- Implemented new components using ReactJS and Java to efficiently monitor, encode, and resolve customer inquiries and concerns.

### FRONTEND DEVELOPER INTERN

#### Centre for Development of Telematics (C-DOT)

Aug 2021 – Sep 2021  
Remote

- Developed a highly responsive and scalable user interface for a JSON Parsing Tool using React.js.
- Translated designs and wireframes into a highly responsive user interface and reusable components.
- Utilized React hooks to enhance the performance and flexibility of the tool.

## PROJECTS

### COVID Watch

#### Covid-19 Live Tracker

- Developed a single page application using React.js, Node.js and Material-UI for interactive experience.
- Used static site generation resulting in faster load time and increasing efficiency.
- Connected Back-End APIs to display data using the Custom Components, Library Components, and Redux.

### Bridge Meet

#### Video Calling Application

- Developed a personal video calling application to create meets using React.js, Firebase and ZegoCloud.
- Added features like Google authentication and real-time communication among the users.
- Used React-Router to turn the application into Single Page Application.

### HackerBoost

#### Hackerrank Automation Tool

- Developed a robust and reliable automation tool using Node.js for Hackerank.
- Used Puppeteer, a Node.js library that provides a high-level API for controlling browsers.
- Enhances efficiency and productivity by doing task like logging in and adding moderators to contests.
